

Royal College of Physicians of Edinburgh

EXAMINATION FOR MEMBERSHIP

APRIL 1913

BACTERIOLOGY

1. What are the Bacilli connected with outbreaks of Food-poisoning, and how can they be differentiated?
2. Enumerate the most important Gram-negative Diplococci, and contrast their cultural characters.
3. Describe Morgan's No. 1 Bacillus, and discuss its relationship to Epidemic Diarrhoea.
4. To what tests would you submit a Sample of Deep Well Water if you were asked for a Bacteriological Report upon its potability?
