## EXAMINATION FOR MEMBERSHIP

*October 1931*

---

### CARDIOLOGY

1. Describe the mechanism of the production of dyspnoea in cardiac failure. What do you understand by the term 'cardiac asthma'?
2. *Adams-Stokes Syndrome*.—Describe its causation, symptomatology and treatment.
3. Discuss the use of quinidine in cardiac disorders.
4. Discuss the value of digitalis in the treatment of acute lobar pneumonia.
