

Royal College of Physicians of Edinburgh

EXAMINATION FOR MEMBERSHIP

JANUARY 1914

DISEASES OF THE ALIMENTARY SYSTEM

1. Describe the signs and symptoms associated with *Carcinoma of the Pancreas*. What phenomena would aid you in the differential diagnosis of *Carcinoma of the Pancreas* and *Cholelithiasis*?

2. *Achylia Gastrica*.—Describe the symptoms and signs of the condition. Wherein might examination of the stools aid you in diagnosis? Give the treatment, diatetic and medicinal.

3. *Mucous Colitis*.—Describe the signs and symptoms. What diatetic and medicinal treatment may be adopted?

4. What are the symptoms and signs present in *Portal Cirrhosis*? How would you differentiate the ascitic fluid from the fluid in a case of *Peritonitis*? What treatment would you adopt to relieve the gastro-intestinal difficulties?
