

Royal College of Physicians of Edinburgh

EXAMINATION FOR MEMBERSHIP

OCTOBER 1921

DISEASES OF THE ALIMENTARY SYSTEM.

1. Discuss the clinical phenomena on which a diagnosis of biliary calculus is based. Deal with them in the order of their importance.
2. What are the relations of cholecystitis to calculus and to jaundice?
3. How can a diagnosis of early malignant disease of the pylorus be made?
4. Discuss the differential diagnosis of hyperchlorhydria and duodenal ulcer.
