

## Evening Meeting

# RCPE: Mpox Emerging Threats

Monday 11 November 2024 | 6.30 – 8.30pm

This webinar will aim to provide an overview of lessons and strategies learnt from COVID, and recent and evolving pathogens and their role in the next pandemic. They will explore the UK experience of Mpox so far including recent changes in classification and management options, alongside updates from managing high consequence infectious disease in the field from a military perspective.

### Topics

- What makes a pathogen potentially pandemic
- MPox
- High Consequence Infectious Diseases in the Field

### Guest speakers include:

- Dr Matt Adam
- Professor Michael Marks
- Dr Kate Templeton

This event is aimed at all levels, Consultants, trainees, allied health professionals, medical students with an interest in infection specialties, public health and GUM, alongside acute medicine, emergency medicine and general practice
