RCPE Aberdeen Symposium 2025

Wednesday 23 April 2025

9:00 – 16:30

Suttie centre, Foresterhill Health
Campus, Aberdeen, AB25 2ZD

Sessions will focus on:

- Specialist care in community
- 10th Annual Jim Petrie Lecture
- Doctors in training: case presentations
- RCPE Keynote lecture

The aim of this symposium is to educate and discuss current trends, along with recent developments in General/Internal medicine practice.

With networking opportunities and a blended forum of lectures & case presentations, we will welcome inspiring and highly regarded speakers who will deliver a broad range of topics.

With specialist talks from Prof Mark & John Petrie giving talks on Diabetes & Cardiology, along with our keynote speaker Prof Zosia Miedzybrodzka giving insight to Clinical Genetics: From clinics to community.

This in-person event is designed for all levels which will include insightful talks on OPAT & community respiratory care.

All grades of medical, nursing, scientific staff, allied health professionals and medical students are welcome.
